WILL MAKE A SHOW

Furniture Men Accept the Space Alloted to Them

IN THE BIG COLUMBIAN FAIR

They Will Begin Work at Once at

The final decision has been made and Grand Rapids will have as handsome an exhibit of furniture as any city in the world at the world's fair. The at-tendance at the meeting of manufac-turers held lass night in Secretary Van Asmus' office was not large, but the leading furniture concerns of the city were represented. No reporters were allowed to listen to the discussion of the subject. The meeting was called to order at about 8 o'clock by John Widdleomb, president of the Furniture Mun's association. The wnois matter was carefully reconsidered; the space showed at the fair, the location of that space and the difficulties, almost impossibilities of making a fine display

The committee appointed to endeavor to get defferent space reported some s get deflerent space reported some significations by the management of the fair, but no change of location and no material change in the amount of space formerly allotted to Grand hapids. The manufacturers realized the importance of the decision on which they were to agree, for the meeting lasted two hours and the discussions were earnest and sincere.

Action Atmost Unanimous.

When a resolution was offered instructing the committee to wire the management of the fair that the space would be excepted it was adopted simost donormously, which is a sufficient guarantee that the fair will have no belief show of furniture than the one pieced there by brend liapids manufacturers. The lines is so short that innectate action is necessary. The committee was asked to prepare a plan for the division of the space allotted and sufmit it to a meeting to be held tomorrow night. One of the reasons for the change from the decision reasoned one week ago was the tremenopera bouse on the Sunday might on which is to a meeting to be held tomorrow might. One of the reason for the change from the decision reached one week ago was the tremendous influence brought to bear on the management of the far and by the chizens of the far and by the far and by the chizens of the far and by the far a
